Preamble

The Promotion of Access to Information Act No.2 of 2000, ("the Act") came into operation on 23 November 2001. Section 51 of this Act requires that we as a private body compile a manual giving information to the public regarding the procedure to be followed in requesting information from us for the purpose of exercising or protecting rights.

Introduction to FutureWorks!

FutureWorks! is a group of professionals practicing in the fields of environment, settlement planning and design, and human capacity enhancement. Our focus is on creating case specific, innovative and highly effective natural resource management, settlement and land use management strategies for a more sustainable future for everyone.

Although the global "Sustainable Development" mandate has been in place for at least the past 10 years, there is still no recipe for how to make it happen. *FutureWorks!* specialises in finding the right approach for specific geographic areas and communities to achieve maximum social, economic and environmental sustainability through appropriate development and use of the land. At the same time, we focus on building the capacity of the people who will need to own and implement these Sustainable Development Strategies, so building people for enduring solutions - an approach that actually walks the integrated, sustainable development talk.

We aim to assist people to access and harness the opportunities that the environment offers for a better quality of life. This vision includes supporting governments and other key development / management agencies for decision-making around the best possible development, management and use of land and natural resources in southern Africa.

In other words, ***we have a vision of a future in which environments really work for people!***

FutureWorks! offers a range of services within the realm of Sustainable Development Strategies. These services include:

- ? Strategic Landscape Assessment, Planning & Design:
 - o Strategic catchment / environmental assessment
 - o Settlement planning & design;
 - o Strategic & integrated development planning;
 - o Environmental design.

We as a private body have compiled this manual, not only to comply with the provisions of the Act, but also to foster a culture of transparency and accountability in our environment and to ensure that members of the public have effective access to information in our possession which will assist them in the exercise and protection of their rights.
